

House District 24 - Representative Ed Gainey

Payments to cyber charters up by \$10.2 million in House District 24 Failure to act now could increase property taxes by over 5 percent

Cyber charter costs are growing rapidly.

Before the pandemic, 721 students in House District 24 were enrolled in cyber charters. Cyber enrollment has since surged by over 60% statewide, pushing estimated enrollment to over 1168 students.

Because of sharply higher cyber enrollment, **cyber tuition costs in House District 24 will jump by an additional \$10.2 million this year, a shocking 74 percent increase** over the comparable tuition expense in 2019.

Rising cyber enrollment intensifies pressure on local property taxes. To cover this new cost, **House District 24 school districts would have to raise property taxes by 5.69 % on average.**

The current system of setting charter school tuition rates is broken. House District 26 school districts currently pay up to \$52,062 in special education tuition and \$17,898 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 will save House District 24 over \$12.3 million by bringing charter school tuition in line with payments to other public schools. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as all public schools to calculate special education tuition.

HB 272 Reforms	House District 24 Savings
Standardize cyber tuition at \$9,500	\$10,528,568
Special Education Tuition Reform	\$1,855,559
Total Savings	\$12,384,127
