

House District 78 - Representative Jesse Topper

Payments to cyber charters up by \$3.0 million in House District 78 Failure to act now could increase property taxes by over 6 percent

Cyber charter costs are growing rapidly.

Before the pandemic, 269 students in House District 78 were enrolled in cyber charters. Cyber enrollment has since surged by over 60% statewide, pushing estimated enrollment to over 436 students.

Because of sharply higher cyber enrollment, **cyber tuition costs in House District 78 will jump by an additional \$3.0 million this year, a shocking 73 percent increase** over the comparable tuition expense in 2019.

Rising cyber enrollment intensifies pressure on local property taxes. To cover this new cost, **House District 78 school districts would have to raise property taxes by 6.28 % on average.**

The current system of setting charter school tuition rates is broken. House District 26 school districts currently pay up to \$26,565 in special education tuition and \$13,817 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 will save House District 78 over \$100,000 by bringing charter school tuition in line with payments to other public schools. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as all public schools to calculate special education tuition.

HB 272 Reforms	House District 78 Savings
Standardize cyber tuition at \$9,500	\$-57,645
Special Education Tuition Reform	\$191,221
Total Savings	\$133,576
