

Palisades School District

Cyber charter costs up an estimated \$1,004,000 in Palisades School District intensifying pressure on property taxes

Cyber charter costs are growing rapidly.

Before the pandemic, 58 students living in the Palisades School District were enrolled in cyber charters. Last year cyber enrollment surged by 59% statewide, which translates to a projected 92 District students in cyber charter schools.

Because of sharply higher cyber enrollment, **cyber tuition costs in Palisades jumped by an estimated \$1,004,000 since 2020, a shocking 192% increase** paid for by taxpayers in the district.

Rising cyber enrollment inevitably intensifies pressure on local property taxes. **The \$1,004,000 hike in cyber tuition payments is the equivalent of a 6.1% increase in property taxes in the Palisades School District.**

The current system of setting charter school tuition rates is broken. Palisades currently pays cybers \$49,661 for every special education student and \$21,233 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 and SB 27 will save local taxpayers \$327,269 by bringing charter school tuition more in line with actual costs. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as every other public school to calculate special education tuition.

| HB272/SB 27 Reforms | Savings |
|--------------------------------------|------------------|
| Standardize cyber tuition at \$9,500 | \$292,106 |
| Special Education Tuition Reform | \$35,163 |
| Total Savings | \$327,269 |
