

Springfield Township School District

Cyber charter costs up an estimated \$89,000 in Springfield Township School District intensifying pressure on property taxes

Cyber charter costs are growing rapidly.

Before the pandemic, 16 students living in the Springfield Township School District were enrolled in cyber charters. Last year cyber enrollment surged by 59% statewide, which translates to a projected 25 District students in cyber charter schools.

Because of sharply higher cyber enrollment,

cyber tuition costs in Springfield Township jumped by an estimated \$89,000 since 2020, a shocking 64% increase paid for by taxpayers in the district.

The current system of setting charter school tuition rates is broken. Springfield Township currently pays cybers \$39,121 for every special education student and \$16,780 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 and SB 27 will save local taxpayers \$166,159 by bringing charter school tuition more in line with actual costs. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as every other public school to calculate special education tuition.

HB272/SB 27 Reforms	Savings
Standardize cyber tuition at \$9,500	\$166,159
Special Education Tuition Reform	\$0
Total Savings	\$166,159
