

## Tracking Early Care and Education in Montgomery County

Access to affordable, high quality early care and education programs is a growing concern for families in Montgomery County and throughout Southeastern Pennsylvania. Part of the reason for this is that the number of children under the age of six with parents in the workforce has grown significantly since 1990.

Large numbers of our youngest children spend all or part of their days in child care settings. How well are we supporting the needs of parents and children? Is child care affordable to parents? Is public investment in early childhood education growing? The following is a brief synopsis of the status of early care and education programs in Montgomery County.

### NEED:

This data set shows the number of children under age 5 living in Montgomery County, the number of children under age 6 with both parents in the workforce and the percentage of those children under age 5 living in poverty.

### **Children in Montgomery County:**

- 47,346 children under age five<sup>[1]</sup>
- 38,381 (68.9%) children under age 6 have both parents in the workforce<sup>[2]</sup>
- 7% of families with children under age 5 live in poverty<sup>[3]</sup>

### AFFORDABILITY:

**The cost of full-time child care is a challenge to all families and a particular burden to low income families.**

Montgomery County Cost of Care <sup>[4]</sup>	Median Household Income <sup>[5]</sup>	Cost of Care as % of Median Household Income	Cost of Care as % of 100% Poverty (\$22,050) <sup>[6]</sup>	Cost of Care as % of 200% Poverty (\$44,100) <sup>[7]</sup>
\$20,425	\$74,000	28%	93%	46%

### SUBSIDIZED CARE:

Child Care subsidies are available to families that currently or formerly received Temporary Assistance to Needy Families (TANF), and to low-income working families earning up to 200% of poverty (\$44,100 for a family of four) at the time of enrollment.

Children 0-5 Enrolled in Subsidized Care <sup>8</sup>	May 05	May 06	May 07	May 08
Center	1,228	1,450	1,818	2,140
Family	49	59	63	84
Group	11	18	14	22
Relative/Neighbor	174	248	316	355
<b>Total</b>	<b>1,462</b>	<b>1,775</b>	<b>2,211</b>	<b>2,601</b>

## Informal Care

Rules for the state's child care subsidy program changed in 1999, making it easier for families to pay for relative and informal caregivers with public funds. This has had a negative impact on young children, as the percentage of low and moderate income children in informal settings (which are not required to meet basic health and safety standards) peaked in the middle of this decade. Since 2005 the percentage of children in Relative/Neighbor care has increased by more than 2 percent, while the absolute number has increased somewhat.<sup>[8]</sup>

Children 0-5	May 05	May 06	May 07	May 08
Percent of Children in Relative/Neighbor Care	12%	14%	14%	14%
Number of Children in Relative/Neighbor Care	174	248	316	355

There are not enough child care subsidies to meet the need in Montgomery County and the waiting list continues to grow.

Waiting List for Subsidized Child Care	March 2005	March 2007	March 2008	March 2009
Montgomery County	174	349	454	770

## Other Early Care and Education Programs:

<i>Pennsylvania Pre-K Counts Enrollment 2007-2008</i> <sup>[10]</sup>	<b>220</b>
<i>Federally-Funded Head Start Enrollment (Includes Early Head Start) 2007-2000</i> <sup>[11]</sup>	<b>538</b>
<i>Pennsylvania Head Start Supplemental Assistance Enrollment 2007-2008:</i>	<b>34</b>

## QUALITY:

Montgomery County is making progress toward meeting quality standards. Participation in the Keystone Stars program, a quality improvement system in the state, has increased since its inception in 2003. However, most participants are clustered below Star 3. Pennsylvania defines good quality care as Star 3 and above.

**Keystone Stars Participation** <sup>[12]</sup>

Star Level	As of 6/07 # of Providers Enrolled	As of 6/08 # of Providers Enrolled
Start with Stars	14	43
Star 1	50	136
Star 2	60	65
Star 3	15	18
Star 4/Accred.	23	18
<b>Total # enrolled</b>	<b>162</b>	<b>280</b>

Indicators such as national accreditation and participation in Keystone Stars, are proxy measures to designate programs that meet more rigorous standards, with better educated teachers, richer programs, and lower staff-child ratios.
