

Two weeks ago legislative leaders from both sides of the aisle reached agreement on a budget deal, finally. That deal was expected to make \$400 million available for our schools and \$60 million for pre-k. Late on Saturday, 12/5/15, the House leaders pulled out of the deal.

They've pushed the train off the tracks; school and important human service and domestic abuse services are at risk of not receiving their state funds till next year. We can't let that happen!

**Call your House member and House leadership and tell them:**
