

## House District 103 - Representative Patty Kim

### Payments to cyber charters up by \$5.9 million in House District 103 Failure to act now could increase property taxes by over 6 percent

**Cyber charter costs are growing rapidly.**

Before the pandemic, 1,068 students in House District 103 were enrolled in cyber charters. Cyber enrollment has since surged by over 60% statewide, pushing estimated enrollment to over 1,730 students.

Because of sharply higher cyber enrollment, **cyber tuition costs in House District 103 will jump by an additional \$5.9 million this year, a shocking 45 percent increase** over the comparable tuition expense in 2019.

Rising cyber enrollment intensifies pressure on local property taxes. To cover this new cost, **House District 103 school districts would have to raise property taxes by 6.72 % on average.**

**The current system of setting charter school tuition rates is broken.** House District 26 school districts currently pay up to \$25,751 in special education tuition and \$10,824 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

**HB 272 will save House District 103 over \$3.5 million by bringing charter school tuition in line with payments to other public schools.** The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as all public schools to calculate special education tuition.

HB 272 Reforms	House District 103 Savings
Standardize cyber tuition at \$9,500	\$2,425,317
Special Education Tuition Reform	\$1,079,580
<b>Total Savings</b>	<b>\$3,504,898</b>
