

Hatboro-Horsham School District

Cyber charter costs up an estimated \$920,000 in Hatboro-Horsham School District intensifying pressure on property taxes

Cyber charter costs are growing rapidly.

Before the pandemic, 29 students living in the Hatboro-Horsham School District were enrolled in cyber charters. Last year cyber enrollment surged by 59% statewide, which translates to a projected 46 District students in cyber charter schools.

Because of sharply higher cyber enrollment,

cyber tuition costs in Hatboro-Horsham jumped by an estimated \$920,000 since 2020, a shocking 177% increase paid for by taxpayers in the district.

Rising cyber enrollment inevitably intensifies pressure on local property taxes. **The \$920,000 hike in cyber tuition payments is the equivalent of a 1.3% increase in property taxes in the Hatboro-Horsham School District.**

The current system of setting charter school tuition rates is broken. Hatboro-Horsham currently pays cybers \$40,343 for every special education student and \$17,171 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 and SB 27 will save local taxpayers \$284,947 by bringing charter school tuition more in line with actual costs. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as every other public school to calculate special education tuition.

HB272/SB 27 Reforms	Savings
Standardize cyber tuition at \$9,500	\$284,866
Special Education Tuition Reform	\$81
Total Savings	\$284,947
