

New Hope-Solebury School District

Cyber charter costs up an estimated \$11,000 in New Hope-Solebury School District intensifying pressure on property taxes

Cyber charter costs are growing rapidly.

Before the pandemic, 5 students living in the New Hope-Solebury School District were enrolled in cyber charters. Last year cyber enrollment surged by 59% statewide, which translates to a projected 8 District students in cyber charter schools.

Because of sharply higher cyber enrollment,

cyber tuition costs in New Hope-Solebury jumped by an estimated \$11,000 since 2020, a shocking 12% increase paid for by taxpayers in the district.

Rising cyber enrollment inevitably intensifies pressure on local property taxes.

The \$11,000 hike in cyber tuition payments is the equivalent of a 0.2% increase in property taxes in the New Hope-Solebury School District.

The current system of setting charter school tuition rates is broken. New Hope-Solebury currently pays cybers \$54,303 for every special education student and \$23,799 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 and SB 27 will save local taxpayers \$52,140 by bringing charter school tuition more in line with actual costs. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as every other public school to calculate special education tuition.

HB272/SB 27 Reforms	Savings
Standardize cyber tuition at \$9,500	\$51,855
Special Education Tuition Reform	\$285
Total Savings	\$52,140
