

West Chester Area School District

Cyber charter costs up an estimated \$319,000 in West Chester Area School District intensifying pressure on property taxes

Cyber charter costs are growing rapidly.

Before the pandemic, 499 students living in the West Chester Area School District were enrolled in cyber charters. Last year cyber enrollment surged by 59% statewide, which translates to a projected 793 District students in cyber charter schools.

Because of sharply higher cyber enrollment, **cyber tuition costs in West Chester Area jumped by an estimated \$319,000 since 2020, a shocking 12% increase** paid for by taxpayers in the district.

The current system of setting charter school tuition rates is broken. West Chester Area currently pays cybers \$33,038 for every special education student and \$13,517 for other students. That is significantly more than the actual costs of providing an online education and is a boon to cyber charter operators.

HB 272 and SB 27 will save local taxpayers \$1,511,559 by bringing charter school tuition more in line with actual costs. The bill standardizes cyber charter tuition at \$9,500 and requires charter schools to use the same criteria as every other public school to calculate special education tuition.

HB272/SB 27 Reforms	Savings
Standardize cyber tuition at \$9,500	\$820,174
Special Education Tuition Reform	\$691,385
Total Savings	\$1,511,559
