Vital Statistics for Children in District 9

The children in District 9 need the tools and resources to achieve and be healthy.

In the FY 2025 Philadelphia must:

1.Increase city funding for the School District by \$100M.

2.Expand the number of children PHLpreK serves by 250.

3. Give children after-school enrichment options by preserving after-school services for 8,000 children served currently by the School District, investing \$8.8M for youth programming at recreation centers, and continue \$2M for Philly Youth Sports Fund that serves 5,000 more youth.

4.Make neighborhoods safer by redirecting the \$4M in cost savings associated with reduced juvenile justice spending to diversion programs.
